### The Sawtooth National Forest:

The 2.1 million-acre Sawtooth National Forest is divided into four management units – the Minidoka, Ketchum and Fairfield Ranger Districts and the Sawtooth National Recreation Area. Elevations range from 4,513 to 12,009 feet above sea level offering a great variety of land forms and vegetation. The Sawtooth mountain region sits at the convergence of three mountain ranges and provides some spectacular alpine scenery. In addition to dozens of perpetually snow-capped peaks, there are countless lakes, thick forests and the headwaters of the Salmon River churning its way through the spectacular Sawtooth Valley.

The Forest extends from northern Utah to the Salmon River country in Idaho. More than two million visitor days occur annually on the Forest with four downhill ski areas, including the world-premiere Bald Mountain Ski Area at Sun Valley and world class nordic ski trails in the Wood River Valley. Recreation is year-round, with summer being the busiest time of year. Recreation activities include developed and dispersed camping, hiking, backpacking, horseback riding, floating, fishing, lake shore recreation, mountain biking, motorcycling, snowmobiling, and skiing.
